

Exciting News!

The International Listening Association
Announces:

The ILA Exchange is our newest online event series to provide ILA members and friends with live, fun, interactive, learning opportunities. The aim is to enable us to “exchange” knowledge, skills, and experience in a creative, interactive format.

The Exchange is a special venue where participants are introduced to new skills and concepts by engaging with dynamic presenters from around the world.

Due to its unique, engaging content and format, our first ILA Exchange was fully booked within the first few days of registration.

If you are an engaging, dynamic presenter and have great ideas and information about listening, the ILA invites you to apply to lead an **ILA Exchange**.

How to apply to lead an ILA Exchange:

Criteria:

- Events will be interactive and provide participants with an introduction to a new concept or skill.
- Presenters will be dynamic, engaging, and have expertise in their subject.
- Presenters must be willing to participate in a “dress-rehearsal” of their program and be open to feedback on delivery and content.
- The entire program will not exceed 60 minutes.
- We welcome creative delivery technique and unique subject matter related to Listening.

Benefits for Presenters:

- This is an opportunity for presenters to engage with an international audience from up to 19 countries worldwide.
- Participants normally comprise a dynamic range of professionals with widely varying interests: business, healthcare, education, academia, spirituality, music and much more.
- Discussion is positive, constructive, thought-provoking and creates opportunities for making international professional and personal connections.
- The ILA will promote Exchange program presenters and content to members and contacts worldwide.

To Apply:

- Complete proposal form at this link (copy and paste or use link below):
